ARE MICROBES IN YOUR SCALP?

Many Explanations of Baldness Have Been Advanced—The Most Correct Is That of Microbes.

The term "microbe" refers to a parasitic plant or fungi also called bacteria. A microbe is so small that it can only be detected by the aid of a microscope. Some microbes are harmless, while others produce various diseases, and derive their titles through the form of their growth or because of the diseases they create, which diseases are infectious or contagious.

Prof. Unna of Hamburg, Germany, and Dr. Sabouraud, the leading dermatologist of France, discovered that a microbe caused baldness, and their theory has time and again been amply verified through research experiments carried on through the observation of eminent scientists. This microbe lodges in the sebun, which is the natural hair oil, and if permitted to flourish, it destroys the hair follicles, and in time the pores entirely close and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the hair growth being revived.

Dandruff is a contagious disease which a microbe causes, and later produces itching scalp, falling hair and baldness. Dandruff is caused by the microbe dissolving the sebaceous matter, which dries up and scales off. Sometimes the cuticle surrounding the hair allows the natural oil of the hair to force its way between the flakes of scurf skin direct to the hair, and the microbe being between the flakes force them apart and they scale off as dandruff.

We have a remedy which positively will remove dandruff, exterminate the microbe, promote good circulation in

THE ONLY WAY
Many Palestine Citizens Have Discovered It.

Just what to do when the kidneys are affected is a question that concerns both young and old. Weak kidneys neglected in childhood lead to life-long suffering. People of advanced years, with less vitality, suffer doubly. In youth or age, languor, backache, urinary irregularity, dizziness and nervousness make life a burden.

There is one remedy that acts directly on the kidneys and cures these troubles. Doan's Kidney Pills owe their world-wide fame to the fact that they cure sick kidneys and cure them permanently. Follow the example of this Palestine citizen and you will be convinced that this is so.

O. F. Cleveland, living at 610 Lacy street, Palestine, Texas, says: "My wife thinks there is nothing like Doan's Kidney Pills. Last summer she complained of backache, accompanied by a soreness in the region of her kidneys. One day I procured a
